CFTC Comments

Dear CFTC Comments:

Our tax dollars were used to bail out large Wall Street firms when they were on the brink of bankruptcy. It is these same institutions who gamble on oil and who continue to profit at every American's expense.

WHY is it that every summer gas prices go UP UP UP??? (just when people start traveling). Do they really think we are that obtuse that we don't know what's going on? We've been screwed over enough by corporate Wall St. interests and it's time to reestablish speculative position limits on major energy commodities!

I encourage the CFTC to adopt the Proposed Federal Speculative Position Limits before volatile fuel prices further harm the country's already weakened economy.

Sincerely,

Janet Fagan
