CFTC Comments

Dear CFTC Comments:

I am writing in support of the CFTC's Proposed Federal Speculative Position Limits that will reestablish speculative position limits on major energy commodities. This rule will provide stability to the marketplace and help prevent future price bubbles. The CFTC must quickly approve a strong rule to protect America's struggling economy.

Wall Street's speculative trading in oil not only hurts the economy, but hurts every American who pays excessive prices at the pump, for groceries, home heating oil and everything related to transportation.

Our tax dollars were used to bail out large Wall Street firms when they were on the brink of bankruptcy. It is these same institutions who gamble on oil and who continue to profit at every American's expense. We also want reparations from these speculators on Wall Street in return for bailing them out. These bailouts were made without our consent; therefore, we have every right to demand our money back.

I encourage the CFTC to adopt the Proposed Federal Speculative Position Limits before volatile fuel prices further harm the country's already weakened economy.

Sincerely,

EILEEN KUCH
