CFTC Comments

Dear CFTC Comments:

I am writing as a concerned citizen and as someone who has been adversely affected by our economy's volatility.

Wall Street's speculative trading in oil not only hurts the economy, but hurts every American who pays excessive prices at the pump, for groceries, home heating oil and everything related to transportation.

I encourage the CFTC to adopt the Proposed Federal Speculative Position Limits before volatile fuel prices further harm the country's already weakened economy.

Sincerely,

Eve Corrigan
